IV. Lack of unity of invention

1. In response to the invitation to restrict or pay additional fees the applicant has:

- ☐ restricted the claims.
- ☐ paid additional fees.
- ☐ paid additional fees under protest.
- ☐ neither restricted nor paid additional fees.

2. ☐ This Authority found that the requirement of unity of invention is not complied with and chose, according to Rule 68.1, not to invite the applicant to restrict or pay additional fees.

3. This Authority considers that the requirement of unity of invention in accordance with Rules 13.1, 13.2 and 13.3 is

- ☐ complied with.
- ☒ not complied with for the following reasons:

As applicant was previously notified this International Preliminary Examining Authority has found plural inventions claimed in the International Application covered by the claims indicated below:

- I. Claims 1-33, 50-51, 58-67 and 70 are drawn to a system for transmitting, receiving and selecting, classified in Class 348, subclass 6.
- II. Claims 34-40 and 52-55 are drawn in an operation center, classified in Class 455, subclass 3.1.
- III. Claims 41-49, 56, 57, 68 and 69 are drawn to a home subsystem, classified in Class 348, subclass 8.

and it considers that the International Application does not comply with the requirements of unity of invention (Rules 13.1, 13.2 and 13.3) for the reasons indicated below:

The Three groups describe different apparatus which does not share the same special technical features. In particular, Group I is limited to the transmitting, receiving and selecting system. Group II is limited to the operations center and Group III describes the home subsystem. All three thus describe different devices.

4. Consequently, the following parts of the international application were the subject of international preliminary examination in establishing this report:

- ☒ all parts.
- ☐ the parts relating to claims Nos. _.
